Automation: On the way of the virtual Worker

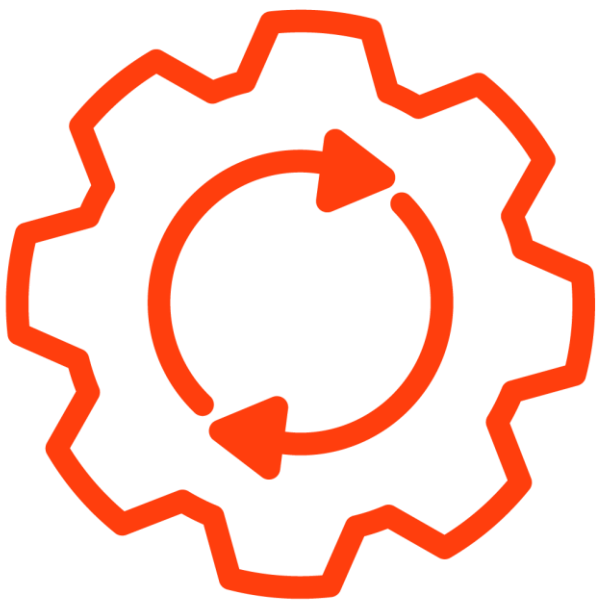

Experts in meeting customer expectations, taking on challenges and reducing efforts

+ Service Model

We offer an automation model as an accompaniment through the different departments and processes of the client, we consider the impact on their business and on the resources at their disposal, using state-of-the-art tools to offer the best service at your disposal

+ Service benefits

We carry out the service by areas of work or influence, we focus on the company's most precious asset, and we focus the effort on the fact that business and technology merge into a single element

We offer support with the client with short-term milestones to obtain benefits from the result immediately and always thinking about the future and the changes that the company can make in the medium and long term

+ Success stories

We have several success stories, both in industry, public sector, health sector, or retail, an example is a maritime services company with multiple headquarters in which the management of customers and suppliers as well as HR has been automated to simplify processes, reduce efforts and align its employees to the really enriching work and in which the employee provides indisputable value. we can tell you first-hand from [Estratec360](#)
