Backup Microsoft365: When the Cloud Needs to Be Protected

We protect the data you use in your daily work

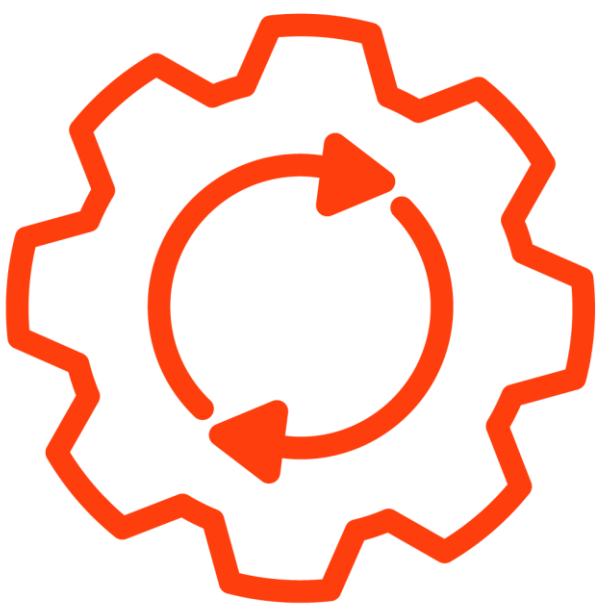

+ Service Model

We protect data with a **private cloud backup service**, totally immutable, independent of the cloud infrastructure. The service operates through a single management console for any of the **Microsoft365 technologies**.

No cost shocks, Restoration guarantee.

+ Service benefits

Microsoft365 is one of the most widespread solutions in the market for communication and productivity in a short time, it allows the use of Exchange online, Teams, OneDrive for Business and Sharepoint Online. The as-a-service solution allows the full use of the tools as if they were under your full protection.

+ Success stories

We have several success stories, both in industry, public sector, health sector or retail, an example is a logistics-maritime operator which protects more than 5 million emails that contain information of vital importance for their daily operations and must be indexed in a single console to be found with agility when they are more than 1 year old, protecting today's data that will become tomorrow's consultation, we can tell you first-hand from **Estratec360**
